

## ECO-PARTICIPATION IN RESEARCH

### ALMOE :

How does it work?

#### **A research based on environment**

The Agency for Sustainable Development ALMOE® aims to significantly improve the first development of our territories, our living environments (public, professional and personal) and our habitats, by engaging resolutely Searches eco-friendly.

Thus, the main activity of the ALMOE agency is to study, to research and develop the best scientific approaches that will improve our lives and those of future generations, while preserving those of other species in their natural environments.

#### **An ambitious program for eco-friendly innovations**

Our Scientific Committee, composed of five members with authority, says the work of search program for two years, subject to obtaining their financing.

For the period 2014-2015, were scheduled four areas of work search:

- Formulation of an inertial bio based composite to reduce the scorching effects
- Development of an exo-structure dynamic exchanges to maintain the health and comfort users
- Analysis of polymorphic territory for reprogramming urban sustainable development
- Comparison and links between urban and environmental psychology and phytosociology

#### **Needed financial contribution**

The share in technological and scientific studies accounts for over 80 % of our business.

Funding of R & D is partially supported by public aid and loans.

That it is essential to carry out this search to receive private funds that do not call into question the independence and neutrality of our agency and its researchers.

As a corporation, your foundation or private company can pay us a monetary donation, under the "environmental philanthropy." As an individual, an individual can we donate for research for the environment. The amount of your gift is free (minimum € 50).

Accordance with the legislation in force, we will give you a receipt, without any return conditions.
